For Better or Verse: Sharing Poetry with ELs - Google Slides

[Edpuzzle](#) / [Remote Learning Onboarding Tutorials](#) - Upload your own videos or videos you find online. Then, insert formative assessment questions to help your students process the video lessons. You can create your own content OR use content others have created. You can edit videos to capture only a section of the video. Tip: Keep videos to under 6 minutes.

[Google Slides](#) - [Google Slides Tutorial](#)

Making your remote videos accessible to students can be done by creating a slide presentation where you can add images to reach all students. Use color to break up content. Use Screencastify together with Google Slides to make your presentation come alive and give directions to students.

[Screencastify](#) / [Screencastify Tutorial](#) - Record yourself or your screen for tutorials to share with your students from your device. For math tutorials use a touch screen device and an empty Google Slide or Drawing app to use as a whiteboard you can write on while you explain the math lesson.

[Quizlet](#) / [Quizlet Tutorial](#) - Interactive study material, learning activities, and games. You can create your own content OR use content others have created. (Conditionally approved - No student login is needed to use the app. Copy URL for the activity you want students to do and add the URL to a Google Classroom assignment.)

[Flipgrid](#) / [Flipgrid](#) - now premium version free - Teacher can pose a question, and students can answer by creating 3-minute videos.

3+ - [Newsela](#) - now the premium version is free - Spanish articles- allows teachers to assign articles related to social studies, science, or English language arts. Texts can be customized to fit the student's reading level. Teachers can embed additional scaffolds to meet the needs of English learners.

[Seesaw](#) - Tips on how to use Seesaw for Distance learning - Students can show their work and thought processes in real-time by submitting a video of themselves working through assignments, or uploading a file to demonstrate their learning. Create your lessons or use lessons from their extensive library

[Scholastic Learning at Home](#) - Day-by-day projects to keep students learning. Offering Free Daily Online Courses for K through 6th grade. Kids can do activities on their own, with their families, or with their teachers. Newcomers can change the page to their own language. See how to do it - [Changing Language of Website](#)

[Virtual Field Trips](#) - Over 30 Virtual Field Trips with Links - you can use your computer to see these. En español

[World of Better Learning](#) - Ideas for learning: Sample Non-tech Idea - Students can build or create something from recycled material. They can then share their 'artwork' with a description of what it is and how they made it.
